Survey contexts and use

Completion of this section is optional and may be used by the RTO to provide information and an explanation of the data provided.

Information	Explanatory Notes
Specific contexts to consider when interpreting survey results	The above responses were from the students completing Certificate III in Early Childhood Education and Care, Certificate III in Education Support and Certificate IV in Training and Assessment.
Main ways data has been used for continuous improvement	This data has been used to prompt us to extend our training resources. We have recently upgraded some of our teaching DVDs, and purchased resource books for Early Childhood Education and Care and Education Support for our student library, especially around working with children with autism. We have also added extra offsite learning activities to enhance learning stimulation.
