

Certificate IV in Training and Assessment - Upgrade TAE40122

RTO 4008

About this course

This nationally recognised and accredited course qualifies you to deliver nationally accredited vocational training in registered training organisations (RTOs), TAFEs, enterprises, community organisations, and schools. You will develop skills in the design, delivery, and assessment of vocation-based training.

The TAE40122 Certificate IV in Training and Assessment qualification has superseded the TAE40116 Certificate IV in Training and Assessment qualification and has been deemed equivalent to and the successor of the TAE40116 qualification. Although we have chosen to use the term “upgrade,” it is important to note that it is not technically an upgrade. The TAE40122 is, in fact, a successor to the TAE40116, resulting in equivalent qualifications, with the change being in the units within the qualifications.

Our upgrade program is designed specifically for experienced VET Trainers and Assessors who hold the TAE40116 version of the Certificate IV in Training and Assessment and have accrued at least two years of training experience delivering nationally recognised qualifications or units of competency within the past four years.

Our programs are led by highly qualified staff who have valuable experience in training and industry. Our intakes are small so our staff have time to personally interact with you. We offer an encouraging and supportive environment to ensure that our students receive quality training and support.
