

Foundation Skills Integration Skill Set TAESS00026

RTO 4008

About this unit

This skill set focuses on developing the skills and knowledge required to identify foundation skill demands within nationally recognised training products and to integrate appropriate support strategies. These skills may be applied across workplace, learning, and assessment contexts.

Successful completion of these units provides credit towards the TAE40122 Certificate IV in Training and Assessment, as well as other qualifications where these units are available for selection.

This skill set includes the following units:

- TAELLN421 Integrate core skills support into training and assessment
- TAELLN422 Use foundation skills resources, strategies and advice
- TAELLN423 Integrate employability skills support into training and assessment

While the course is intensive, its short duration is a major advantage for learners. In just five days, participants complete the program and can immediately apply their new skills without months of ongoing study. Our accelerated format keeps learners engaged and focused, allowing them to complete the course efficiently and minimise disruption to work and personal commitments.
